

The World Game's® Dymaxion™ Fold-up Map

Instructions

1. Cut out entire map along outside lines.
2. Fold along all straight lines, including lines going across or "under" land shapes. Fold tabs down.
3. In alphabetic order, paste or tape same-lettered tabs next to each other (A-a, B-b, ...) to underside of the map.
4. The finished map will look like this:

This shape is called an icosahedron.
