

UPPER SCHOOL TRIP TO SOUTH AFRICA SUMMER 2019

August 5 – August 18, 2019

SOUTH AFRICA

Service Leadership in South Africa: Conflict Reconciliation Through Social and Natural Change

This expedition is all about ethical leadership: fostering social awareness and environmental stewardship. We will tackle questions of environmental and social change in the complex terrain of modern South Africa. Seldom other places on Earth offer such fertile ground for considerations of ethical leadership: both social and environmental.

By participating in World Challenge South Africa, you will be able to apply lessons on inequality, social change, and environmental justice in your lives and careers back in the United States.

You will have the opportunity to:

- Push yourself out of your comfort zone on a trek through the high-altitude Drakensberg mountains
- Conduct a joint environmental clean-up with former students of D-E Faculty member Mr. Chris Kelly, in a township outside Durban
- Walk in the footsteps of where Nelson Mandela was captured during the anti-apartheid fight
- Visit a museum which chronicles labor under apartheid, and discuss modern African conservation visiting a premier game park (Hluhluwe) in the St. Lucia region.
